Domore

Dear Ms. Fript,

I am writing to you in response to the enclosed letter from Mr. Robert J. Bowden of the Emergency and Enforcement Response Branch of the U.S. EPA.

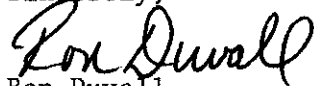

I have recently replaced Mr. Dale Fore, who as controller of Domore Corporation, was in contact with the EPA concerning the Himco Landfill Site in Elkhart, Indiana.

The enclosed letter is my first knowledge of the situation concerning this landfill site. I called a Mr. Thomas Nash regarding this letter, as the letter states to do if one would have any questions. My conversation with him on September 20, 1990 was to introduce myself and express my concern about the landfill situation as it relates to the Domore Corporation. The materials that Domore would have disposed of thru Himco Waste Away I don't believe would be classified in the hazardous category. We purchase processed material from suppliers such as wood, fabric, and metal extrusions for assembly into components of modular office systems.

Domore Corporation feels comfortable in knowing that we did not dispose thru Himco Waste Away any materials classified in the hazardous category. I would hope that this situation will be cleared up and that the list of potentially responsible parties will be narrowed down to those companies that did actually use Himco Waste Away to dispose of their hazardous materials.

Any further contact should be addressed to my attention at the Domore Corporation. The phone number is (219)293-0621.

Sincerely,

Ron Duvall
Senior Accounting Manager
